Interested PACTS Vendors:

During the Industry Day for PACTS and in subsequent postings on www.fbo.gov, the Government indicated that the final Request for Proposal (RFP) was scheduled to be released in May of 2008. The purpose of this correspondence is to update the scheduled release of the final RFP to early June of 2008. The Government anticipates releasing the final RFP within the next ten (10) calendar days.

Additionally, the Government will hold a Pre-Proposal Conference in the Washington, DC area approximately ten (10) calendar days after release of the final RFP in order to provide additional clarification on the solicitation requirements. The Government understands that some interested vendors reside outside the Washington, DC area, and is therefore doing its best to provide definitive information as soon as possible to allow for travel arrangements. As with the Industry Day, any slides presented at the event will be posted on www.fbo.gov.

Please continue to monitor www.fbo.gov for additional and updated information on the final RFP and the Pre-Proposal Conference. We appreciate the SDVOSB community and their anticipation for the PACTS requirement. All feedback or comments are appreciated.

Regards,

H. Harrison Smith IV
